We have a strategy here at DAC where we partner with you as parents to build a strong spiritual foundation in the lives of your children called:

The Orange Strategy:

Orange is a strategy for combining critical influences in life to fuel faith in the next generation. **Orange** is a path that combines the strength of two—yellow and red—to create the brilliance of another, Orange. By combining the critical influences of the light of the church which is represented by the color yellow, and the love of the family which is represented by the color red, the **Orange** strategy synchronizes efforts of parents and the church and shows a generation who God is, more effectively than either could alone.

For more information about the Orange strategy please go to <http://whatisorange.org>
